As you enter the foyer area your eyes will be drawn to the huge timbers that soar above the great-room along with the extra-large glass windows. To your right is the chef style kitchen that offers plenty of room to cook your Thanksgiving dinner.

Although Joe & Ladonna live in California, they built their home in Ohio in 2018-2019. They built and furnished it as a vacation home for themselves and to rent out when they aren't there. When not being used by the family, it's rented through Airbnb almost every week of the year.

This 2814 sq. ft. home has four bedrooms and 3-1/2 baths. The spacious master bedroom has beautiful French doors leading to a deck that overlooks the spectacular view of the valley below. One of the bedrooms has been converted into an office. From the gourmet kitchen to the exercise room in the lower level, this is a must-see home.

Dale is a build-it-yourselfer with an extensive knowledge in the construction industry who was a natural when it came to building his own home with many unique features. This home is the farthest location from our mill but well worth the trip.
